YOUR HOUSE PLAN SERVICE

The House Plans printed in this book, "Your Home" have been reproduced from the regular issues of the AMERICAN LUMBERMAN. The Book is offered to dealers as a means of reaching prospective home builders at a nominal cost.

So that you can follow the books with local advertising, a cut service is also maintained, as is explained below. Complete sets of working drawings, lists of material and specifications are supplied at the low cost of \$3.50 per set.

All of this service is offered to the industry not to make any money but in an endeavor to help you sell more lumber and building material. Quantity production, of course, is the reason we are able to offer this kind of service at such low costs.

Your name and address will be printed on the back cover of the book if you wish it, or you can purchase the books without the imprint, (see prices below). No other name will appear on the book. This page will be blank and the rest of the book will be as it is now.

100 books 15c each
500 books 13c each

300 books 14c each
1,000 books 11c each

If desired, name, address, phone number and one line of copy will be printed in the square on the back cover for 1 cent per book.

Prices gladly quoted on larger quantities.

Orders for less than 100 copies cannot be imprinted.

COMPLETE working Drawings, lists of material and specifications; per plan	\$3.50
Electrotype of elevations, 4 inches wide, 85 line screen	2.75
Electrotype of floor plans, 2 inches wide	1.50
